EXPERIENCE

- **Flitpay Pvt. Ltd.** Jaipur, Rajasthan
SDE-1 Frontend Developer Jan. 2023 - PRESENT
 - Designing responsive UI screens and incorporating additional functionalities, I ensure that the Flitpay app delivers an intuitive and seamless user experience across devices.
 - One of my key contributions includes the implementation of a user referral bonus reward screen, empowering users to earn rewards by referring friends and acquaintances to the platform.
 - To enhance user engagement, I introduced a feature where users can scratch to reveal their earned rewards, adding an element of excitement and interactivity to the app.
 - Implementing authentication and authorization processes, including KYC checks, I prioritize user security and compliance with regulatory standards.
 - Designed animated modals throughout the app, elevating the user experience with visually appealing and interactive elements.
 - Leveraging web links and websockets for real-time data integration, I ensure that users have access to up-to-date information and dynamic cryptocurrency graphs.
 - Integrated GraphQL and REST APIs seamlessly into the app, enabling efficient communication with backend systems and enhancing overall performance and scalability.
